## SUMMARY

---

I am a software engineer with more than a year of experience in full-stack development using cutting-edge technologies. I'm searching for a firm where I can contribute to its advancement and grow personally at the same time.

## PROFESSIONAL EXPERIENCE

---

### Code B – Software Engineer

Mumbai, India - June 2023 – Present

- Currently, I am leveraging a range of frontend and backend technologies, including MERN, NextJS, NestJS, SvelteJS, etc., across various projects.
- Actively gather and analyse customer requirements to facilitate the identification and recommendation of tailored products aligning with their specific needs and preferences.
- Continuously iterate on product features based on user feedback and market trends, driving product improvement and innovation to meet evolving customer demands and preferences.

## PROJECTS

---

### Mple.ai

Jan 2024 – Present

- Objective: Develop an AI-powered video interview and training platform with an interactive UI to enhance user engagement.
- Technologies: ReactJS, NextJS, NestJS, NodeJS, Tailwind CSS, AWS, etc..
- Responsibilities: Full-stack development, including frontend and backend, and implementing UI designs.

### Meahana.io

June 2023 – Mar 2024

- Objective: Developed a B2B presentation product facilitating interactive presentations while allowing users to engage and provide real-time inputs.
- Technologies: Svelte Js, NestJS, Node.js, Socket.io, Tailwind CSS.
- Key features: Real-time collaboration, instant updates, and a customizable user interface.
- Responsibilities: Frontend and backend development, real-time communication, UI design implementation.

## EDUCATION

---

### Bachelor of Technology (B.Tech)

July 2022

I.K. Gujral Punjab Technical University, Punjab

Computer Science and Engineering - 74.8%

## SKILLS
