SUMMARY

Full-Stack Software Engineer with 2+ years of experience building and scaling AI-driven web platforms using React, Next.js, Node.js, and AWS. Experienced in designing optimised database schemas, implementing secure APIs, and integrating AI/automation workflows into production systems. Strong understanding of scalable architectures and eager to contribute to Mercor's mission of transforming the hiring process through LLM-powered technology.

PROFESSIONAL EXPERIENCE

CODE BUSINESS SOLUTIONS PRIVATE LIMITED

Mumbai, India

Software Engineer

JULY 2023-Present

- Designed and developed scalable full-stack applications with React, Next.js, Node.js, and Nest.js, deployed on AWS and GCP. Ensured high code quality through rigorous code reviews and adherence to development standards.
- Collaborated with cross-functional teams to translate complex business workflows into efficient system architectures.
- Led backend API development using Node.js and Nest.js, focusing on RESTful API design and optimizing complex database queries for performance and reliability.
- Contributed to AI-driven and automation-based projects, improving processing time and scalability.
- Improved system monitoring and debugging processes to support high-throughput production workloads.

PROJECTS

Mple.ai

JAN 2024-Present

- AI-powered Video Interview and Training Platform Built scalable AI-driven features improving interview analytics and training personalisation.
- Architected backend APIs using Nest.js and Node.js, deployed on AWS, optimised for performance and scalability.
- Designed database schemas and handled structured/unstructured data for analytics workflows.

Meahana.io

JUN 2023-MAR 2024

- Developed a real-time collaboration system using Svelte.js, Node.js, and Socket.io, supporting thousands of concurrent users.
- Designed database structure for real-time state management and optimised WebSocket handling.
- Integrated feedback loops to enhance engagement and reduce latency in multi-user environments.

EDUCATION

I.K. GUJRAL PUNJAB TECHNICAL UNIVERSITY

Punjab, India

B.Tech - Computer Science and Engineering - CGPA-7.48

AUGUST 2018-AUGUST 2022

SKILLS

Frontend: React.js, Next.js, Svelte.js, Tailwind CSS, Bootstrap

Backend: Node.js, Nest.js, Express.js, REST APIs, Swagger

Database: MongoDB (NoSQL), MySQL (familiar), Schema Design, Firebase

Cloud & DevOps: AWS (EC2, S3, Lambda), GCP (basic knowledge), Git, CI/CD

Programming Languages: JavaScript, TypeScript, Python (learning)

Other: Unit Testing, End-to-end Testing, WebSockets, JWT Authentication, Performance Optimisation

ADDITIONAL STRENGTHS

- Adept at solving ambiguous problems and bringing clarity through structured experimentation.
- Experienced in performance optimisation, debugging, and crafting user-centric interfaces.
- Strong collaborative mindset, value open communication, peer learning, and constructive feedback

LANGUAGES

English, Hindi, Bengali

INTERESTS

AI-driven creativity, workflow automation, reverse engineering, and exploring emerging web technologies.
