SUMMARY

Full-Stack Software Engineer with 3+ years of experience building scalable web applications and AI-powered platforms, combining hands-on engineering with team leadership and technical ownership. Proficient in React.js, Next.js, TypeScript, Node.js, NestJS, REST APIs, and MongoDB. Experienced in leading feature development, making architectural decisions, optimizing application performance, and integrating AI-driven workflows into production systems. Focused on delivering maintainable, reliable, and high-performance software.

PROFESSIONAL EXPERIENCE

mple.ai | Software Engineer L2 | Team Lead **Sep 2025-Present**

- Lead the development and delivery of **core product features** for an AI-powered platform, owning implementation, maintenance, and continuous improvement.
- Drive full-stack development using **React.js, Next.js, Vite, Node.js, and NestJS**, making architectural decisions to improve scalability, maintainability, and performance.
- Lead and coordinate engineering efforts, guide technical implementation, review code, and resolve complex technical challenges to ensure high-quality feature delivery.
- Develop and optimize **AI-driven workflows**, backend APIs, and data-processing pipelines, collaborating with cross-functional stakeholders to translate product requirements into reliable production solutions.

Code Business Solutions Private Limited | Software Engineer **Jun 2023-Aug 2025**

- Designed and developed full-stack applications using React.js, Next.js, Node.js, and NestJS, improving page-load performance by **30%** and reducing API response time by **40%**.
- Developed and optimized RESTful APIs and database queries, focusing on data consistency, efficient data access, and backend performance.
- Collaborated with cross-functional teams to translate business requirements into **scalable application** features, modular architectures, and maintainable code.
- Contributed to AI-driven automation initiatives and production debugging to streamline backend workflows and improve system reliability.

PROJECTS

Mple.ai | AI-Powered Enterprise Sales Intelligence & Coaching Platform **Jan 2024-Present**

- Contribute to the development of an AI-powered enterprise platform combining sales intelligence, AI coaching, roleplay simulations, and performance analytics.
- Develop and maintain full-stack features, backend APIs, and AI-driven workflows supporting sales training, skill evaluation, and data-driven insights.

Meahana.io | Real-time Collaboration Tool **Jun 2023-Mar 2024**

- Developed a real-time collaboration platform using Svelte.js, Node.js, and Socket.IO to support concurrent user interactions.
- Designed database structures and optimized WebSocket communication and real-time state management for responsive, synchronized collaboration.

EDUCATION

I.K. Gujral Punjab Technical University, Punjab, India

B.Tech in Computer Science and Engineering | August 2018 - August 2022 | CGPA: 7.48/10

SKILLS

Programming Languages: JavaScript (ES6+), TypeScript
Frontend: React.js, Next.js, Svelte.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Node.js, NestJS, Express.js, REST APIs, Swagger/OpenAPI
Database: MongoDB, Firebase, Database Schema Design, Query Optimization
Cloud & DevOps: Amazon Web Services (AWS), Google Cloud Platform (GCP), Git, CI/CD
Core Competencies: AI Integration, API Development, System Architecture, Performance Optimization, WebSockets, JWT Authentication, Unit Testing, End-to-End Testing

AWARDS & RECOGNITION

Technical Excellence Award | mple.ai | Oct-Dec 2025

INTERESTS

AI-driven creativity, workflow automation, reverse engineering, and exploring emerging web technologies.
